VISION OF BNB RABBIT

BNB RABBIT BSC (\$BNBRBT) is an exciting and rewarding meme cryptocurrency. The creation of this token was inspired by the ancient Chinese history.

In the Chinese calendar, 2023 is the year of Rabbit. From history, the year of rabbit signifies prosperity for everyone in all areas of life. In the wake of that, BNB Rabbit BSC project was created for the prosperity of all.

Our aim is to make cryptocurrency and its benefits available to everyone and position all holders and supporters of this project to be partakers of the prosperity that the year of rabbit brings.

BNB RABBIT SOLUTION

BNB RABBIT BSC project is a decentralized and community-focused cryptocurrency built on the Binance Smart Chain (BEP-20) that rewards holders in BUSD.

This project was Launched on March, 2023. It aims to become one of the fastest growing cryptocurrencies in the world. The goal of this project is to create an ecosystem where cryptocurrency will easily and readily be available to the masses.

The BNB Rabbit BSC will be the best BNB project with the best community!

WHY BINANCE SMART CHAIN?

Binance Smart Chain is one of the leading platforms for tokens. The key difference between BSC and alternatives such as Ethereum Smart Chain is the blockchain fees that are collected by miners to ensure that only valid transactions are recorded and processed on the blockchain.

Multitude of transactions can result in high fees. For example, Ethereum has recently recorded fees over \$100 for a single transaction. At the same time Binance Smart Chain charges range between \$0.10 - \$0.50 for the same transaction.

Another important factor to consider is transaction speed. Ethereum is affected by scalability challenges, which cause congestions on the blockchain and results in long waiting time and/or higher fees. The Binance Smart Chain resolves those scalability problems and it allows easy implementation of smart contracts to build scalable DApps.
